

Solve the Power and Water puzzle with Doosan

At Doosan, we have all the EPC pieces to the power and water puzzle. We are the contractor of choice for combined-cycle power solutions with numerous major projects in the Middle East and around the world to our credit. We are also the world leader in desalination with state-of-the-art MSF, MED, RO, and hybrid solutions. It is a synergistic combination of capabilities guaranteed to produce far more than just power and water.

Contact us today to see how much more synergy your next project can generate with Doosan.
